

VENERGY MARITIME

COMPANY PROFILE

**Working for a Sustainable Future
in the Shipping Industry**

CREATING NEW PERSPECTIVES

VENERGY MARITIME

ABOUT US

Venergy Maritime is a privately-owned company, engaged in the business of oil and commodity trading. Despite the recency of its operations, it has achieved global market coverage through its network.

OUR GLOBAL STRATEGY

WE ARE IN CONSTANT SEARCH OF EXTERNAL PARTNERS WHO SHARE OUR VISION AND BELIEFS.

Venergy Maritime is Greek business, whose central offices are located in Piraeus, but plans to establish subsidiaries across the globe.

We source worldwide and have access to all the key energy commodities.

In each of our operations, we seek to work with partners who share our commitment to high international standards.

Our network allows us to identify changing energy commodity flows and evolving market dynamics.

Venergy Maritime's added value stems from its close relationship with oil producers, superior logistics capabilities and strategically located storage and blending facilities.

Above all, Venergy Maritime is a trusted partner. We have built our business on long-term relationships and the quality of our operations is highly valued by our associates.

Our customers' needs are constantly evolving and we are happy to adjust accordingly, offering tailor – made, high quality services, to meet their specific needs. As such, we have gained a reputation as reliable suppliers and are now able to rely on a large pool of repeat customers.

Venergy Maritime combines operational expertise with project financing.

OUR VISION
**TO EXCEL IN THE SHIPPING
INDUSTRY THROUGH EFFICIENCY
AND INNOVATION, WHILE SUPPORTING
ITS TRANSITION TOWARD
A SUSTAINABLE FUTURE.**

OUR MISSION
**TO ENSURE SAFE CARGO,
PRIORITIZING ENVIRONMENTAL
CONSCIOUSNESS AND RESPECT.**

OUR CORPORATE PHILOSOPHY

OUR VALUES

Safety

When it comes to safety, we make no compromises. We take pride in the fact that the wellbeing of our people and the protection of the environment are prioritized by every member of our team.

Quality

We have set high quality standards both at sea and on shore and require that these are met by each of our endeavors.

Passion

We work with enthusiasm, encourage hard work and value ambition.

Improvement

We believe in the constant evolution of our company and are intent on making adjustments and improvements on a regular basis.

Integrity

We are fully compliant with all industry regulations and are governed by a set of ethical principles.

Teamwork

Working together is the secret to our company's success. We encourage open communication and welcome constructive criticism from every member of our team.

A RELIABLE PARTNER

WHAT WE DO

Venergy Maritime is engaged in the asset management and operations of ships around the world.

Having obtained significant exposure and experience in the shipping industry through its affiliated group companies, Venergy Maritime, commenced its operations in 2021.

Through joint venture partnerships, Venergy Maritime partakes in prestigious projects and has adopted exemplary operating practices, making use of cutting edge technologies, which guarantee maximum efficiency and excellent customer service.

Venergy Maritime prioritizes its stakeholders, making a constant effort to fully understand their needs and ultimately exceed their expectations.

The company values its relationships with key commercial and technical management partners and is committed to their maintenance and development, which it considers crucial to its continued success. Through such partnerships, combined with its in-house team's growing expertise, Venergy Maritime is intent on playing a crucial role in the market's transition throughout the following years.

SOCIAL & ENVIRONMENTAL RESPONSIBILITY

VENERGY MARITIME

OUR CORPORATE SOCIAL RESPONSIBILITY

We fully recognize the ways in which our daily operations impact the world, which is why we prioritize the care of both our people and the environment. To ensure this prioritization by every member of our team, we have put a set of principles into place that are in line with our values and act as a beacon for our daily actions and decision – making processes.

ENVIRONMENT

In line with our core values, we strive to increase our operational efficiency and reduce our environmental footprint, both onshore and at sea. We carry out each aspect of our work with the outmost respect for the natural environment, our and strive for constant improvement, following first-class standards with regards to technical maintenance and the operations of our fleet. Finally, we foster an environmentally friendly philosophy internally, by raising awareness about the current international environmental crisis and encouraging our employees to develop simple daily habits that will ultimately contribute to an ethical and sustainable future.

ENERGY

Achieving maximum energy efficiency, both on and offshore, is one of our top priorities. We have set demanding energy consumption targets, which exceed the industry's requirements and international standards.

HUMAN CAPITAL & SOCIETY

Our social responsibility is an integral part of our business culture. We support the local communities in which we operate, by offering job opportunities and creating a hub for innovation and impactful investing. We have created a workplace which is grounded on equal job opportunities, transparency and ethical behavior. High standards of governance are engrained into every level of our workforce, guaranteeing that each and every one of our employees' rights are effectively protected. We do not tolerate discrimination of any sort and require that our partners do the same.
